Hardware Check

Before the test begins, we will check the microphone and headset volume.

Please make sure your headset is on, Follow the instructions on each screen. Be sure that your microphone is properly positioned and adjusted to allow for the best possible recording. Speak directly into the microphone and in your normal speaking voice.

退出

請把左上角所有(退出)----->改成(EXIT)

Adjust the volume

To adjust the volume, select the **Volume** icon at the top of the screen. The volume control will appear. Move the volume indicator to the left or the right to change the volume.

To close the volume control, select the **Volume** icon again.

You will be able to change the volume during the test if you need to.

You now have the option to adjust the volume.

Adjusting the Microphone

In order to check your **microphone volume**, you will speak into the microphone using your normal tone and volume. For best recording results, your voice level should remain generally within the Good Range. While you speak the microphone will adjust automatically.

Example:

Good

Too Loud

這頁是聲音播完之後，跳下一頁做麥克風測試

Select the 'Record' button, A timer will count down until the system is ready to record.

To check your microphone level, you will record the following paragraph using your normal tone and volume.

There are several reasons why I would prefer to live in a large city. Some of the greatest advantages would include the number of job opportunities and career options, public transportation, greater diversity, and a wealth of entertainment. Also, large cities typically have a great deal to offer in terms of history, art and culture.

按RECORD,就可以錄音測試了

Adjusting the Microphone

In order to check your **microphone** for the best recording results, your volume will adjust automatically.

Example:

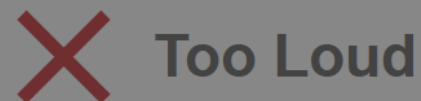

✓ Success

Your microphone volume has been successfully adjusted.

Reading Section

In the Reading section, you will answer 35-48 questions to demonstrate how well you understand academic and non-academic texts in English. There are three types of tasks.

Type of Task	Description
Complete the Words	Fill in the missing letters in a paragraph.
Read in Daily Life	Answer questions about everyday reading material.
Read an Academic Passage	Answer questions about academic passages.

Module 1

The clock will show you how much time you have to complete Module 1.

You can use **Next** and **Back** to move to the next question or return to previous questions within the same module.

You WILL NOT be able to return to Module 1 once you have begun Module 2.

Although there are many different types of clouds, they are all composed of the same basic substance. Each cloud consists of tiny drops of water or ice, which are usually too small to be seen with the naked eye. These particles cluster together and form an invisible gas known as water vapor. Some of this vapor attaches to microscopic bits of dust or ice floating in the atmosphere. When enough of these elements combine, they create a visible cloud.

Subject: Safety drill

Attention all residents: There will be a building-wide safety drill on Friday, October 8 at 10:00 A.M. Please evacuate the dorm promptly when you hear the alarm. Dorm staff members wearing red safety vests will guide residents to where they should wait until the drill ends.

Thank you,
Campus Housing

What is the main purpose of the notice?

- ☐ To announce a safety procedure
- ☐ To request feedback
- ☐ To advertise a new service
- ☐ To explain renovations

Read an announcement.

SCIENCE LIBRARY RENOVATION ANNOUNCEMENT

The Woods Science Library will be temporarily closed starting Monday, August 2, for renovation. The renovation is expected to take approximately six weeks.

Important Information:

1. Book Returns:

- Please return all borrowed books to the temporary drop-off location at the community center, located at 123 Elm Street.

2. Online Services:

- Digital resources such as e-books and online databases will remain available throughout the renovation period. Visit our website at www.woodslib.edu for access.

3. Programs and Events:

- All scheduled programs and events will be relocated to the community center. Check our website for updated schedules and locations.

4. Contact Information:

Where should patrons bring back their borrowed books during the renovation?

- ☐ The community center
- ☐ The special meeting rooms
- ☐ The library staff desk
- ☐ The regular drop-off location

Engineering Earth's Climate

Earth systems engineering and management (ESEM) focuses on manipulating Earth's processes to address environmental challenges. This field combines engineering, environmental science, and policy-making to devise solutions for climate change and other issues. One method of ESEM is geoengineering, which involves deliberate intervention in Earth's climate system to counteract global warming.

Geoengineering techniques fall into two categories: solar radiation management (SRM) and carbon dioxide removal (CDR). SRM aims to reflect sunlight into space to cool the planet. Techniques include injecting aerosols into the stratosphere and deploying reflective mirrors. CDR focuses on reducing greenhouse gas concentrations through methods like afforestation, ocean fertilization, and direct air capture of CO₂.

Implementing geoengineering presents challenges. Technological feasibility is a concern, as many techniques are experimental. There are ethical and governance issues, such as who controls these interventions and how impacts are monitored. Additionally, unintended consequences may arise, causing more harm than good. Despite these challenges, ESEM offers solutions to mitigate climate change. Integrating engineering with environmental management can lead to innovative approaches for sustainability. Collaborative efforts between scientists, engineers, and policymakers are crucial to developing safe strategies.

Which of the following is true of Earth systems engineering and management (ESEM)?

- ☐ It finds solutions for problems by allowing natural processes to work themselves out.
- ☐ It uses the resources of multiple disciplines to accomplish its goals.
- ☐ It focuses exclusively on counteracting global warming.
- ☐ It is also known as geoengineering.

End of Module 1

Select **Next** to continue to Module 2.

Module 2

The clock will show you how much time you have to complete Module 2.

Fill in the missing letters in the paragraph.

James Cook was a British naval officer, explorer, and cartographer born in 1728. He is best known for his three voyages across the Pacific Ocean, during which he meticulously mapped coastlines and collected data on astronomy, natural history, and oceanography. Cook is the first European to circumnavigate New Zealand and make contact with the Hawaiian Islands. He is also notable for implementing health measures aboard his ships, such as dietary changes to prevent the disease scurvy.

Bird Migration

Every year, millions of birds travel huge distances to wintering grounds, and then back to breeding grounds when warmer weather returns there. Bird migration evolved in response to climatic changes. During the Ice Age, when average temperatures were frigid, migrating birds had a survival advantage, and the behavior became widespread.

Migration is also linked to resource availability. Arctic terns, which undertake the longest migrations of any animal by flying from their summer breeding grounds in Earth's north polar (Arctic) regions to their wintering grounds in Earth's south polar regions, feed primarily on small fish and other small marine animals. This prey is most abundant when increased sunlight results in the increased availability of algae, the microscopic marine plantlike organisms that are food for the tiny marine animals known as zooplankton, which are in turn consumed by terns' prey.

Not all birds migrate. Rock ptarmigans also live in Arctic and sub-Arctic regions. Instead of flying to warmer climes in winter, they shelter in snow burrows and reduce activity to conserve energy. They feed on plants like birch and willow trees, which are available in their habitat year-round. The divergence between migratory and sedentary species represents different adaptations to environmental pressures.

The passage implies that bird migration began when

- ☐ wintering grounds were closer to breeding grounds than they are now
- ☐ areas suitable for breeding were smaller than they are now
- ☐ there were many more birds than there are now
- ☐ climates were generally much colder than they are now

TOEFL Listening

Listening Section

In the listening section, you will answer 35-45 questions to demonstrate how well you understand spoken English. There are three types of tasks.

Type of Task	Description
Listen and Choose a Response	Select the best response to the question or statement.
Conversations	Answer questions about short conversations.
Announcements and Academic Talks	Answer questions about announcements and academic talks.

You WILL NOT be able to return to previous questions.

Module 1

In an actual test, the clock will show you how much time you have to complete each question.

You can use **Next** to move to the next question.

The first task is **Listen and Choose a Response**. In this task, you will listen to a sentence or question. You will then read four sentences and choose the option that is the best response.

Choose the best response. 1. 這個畫面是學生在聽聽力的部份，
所以選項會成灰階

2. 等聽力播完，選項就會變成黑色
- ☐ Three meters long.
 - ☐ In the supply cabinet.
 - ☐ Close to the deadline.
 - ☐ On Tuesday morning.

Choose the best response. 1. 這個畫面是學生在聽聽力的部份，所以選項會成灰階

- ☐ In about an hour.
- ☐ The local orchestra.
- ☐ At the campus theater.
- ☐ It's free for students.

2. 等聽力播完，選項就會變成黑色

Time Remaining

You still have time to respond. As long as there is time remaining, you can keep writing or revise your response.

Select **Back** to keep writing or revising.

Select **Continue** to leave this question.

Once you leave this question, you WILL NOT be able to return to it.

Write an Email

You will read some information and use the information to write an email.

You will have 7 minutes to write the email.

You recently purchased a piece of furniture for your dorm room from an online store called 'Home Comforts.' When the item arrived, you discovered that it was damaged during shipping. You are disappointed because you were looking forward to using the new furniture. You need to contact customer service to resolve the issue.

Write an email to the customer service representative, Ms. Brown. In your email, do the following:

- Describe the item you purchased and the damage it sustained.
- Explain why you are disappointed with the situation.
- Request a replacement or a refund for the damaged item.

Write as much as you can and in complete sentences.

Your Response:

To: Ms. Brown

Subject: Damaged furniture item

Write for an Academic Discussion

A professor has posted a question about a topic and students have responded with their thoughts and ideas.
Make a contribution to the discussion.

You will have 10 minutes to write.

Your professor is teaching a class on communication studies. Write a post responding to the professor's question.

In your response, you should do the following.

- Express and support your opinion.
- Make a contribution to the discussion in your own words.

An effective response will contain at least 100 words.

Professor Diaz

We've been discussing the rise of digital communication and its impact on face-to-face interactions. Some people believe digital communication enhances relationships by making it easier to stay in touch, while others argue it diminishes the quality of personal interactions. What do you think is the impact of digital communication on personal relationships?

Kelly

I believe digital communication enhances relationships. It allows people to stay connected regardless of distance and time. Tools like video calls and instant messaging make it possible to maintain close relationships with friends and family who live far away.

Andrew

In my opinion, digital communication diminishes the quality of personal interactions. It often lacks the emotional depth and non-verbal cues of face-to-face conversations. People may feel more isolated and less emotionally connected despite frequent digital interactions.
